Independent Family Visit to Adventure Park

We are going to Adventure Park.
There are a lot of different things to do.

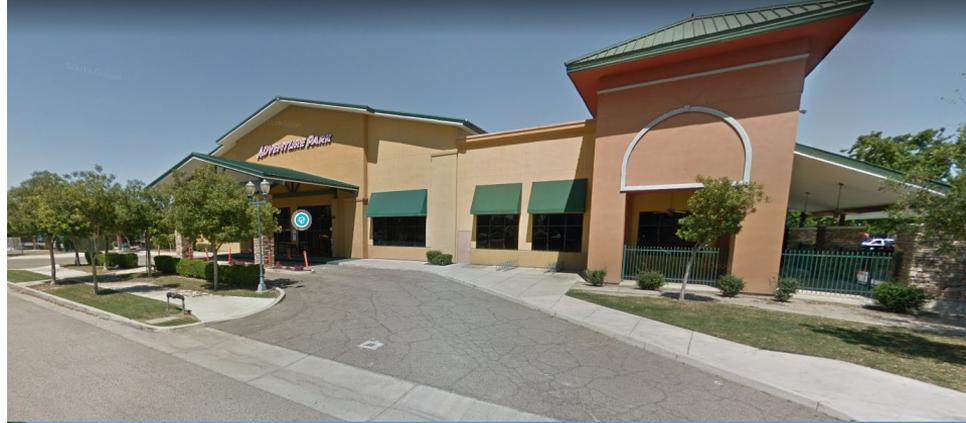

Some areas of Adventure Park are loud and some are quiet. Some are crowded and some have fewer people. Some are inside and some are outside. My family can ask a staff member which areas are best for me.

When we arrive
at Adventure
Park, we will see
a big yellow
building with a
green roof.

To go inside we
will open the
black front doors.

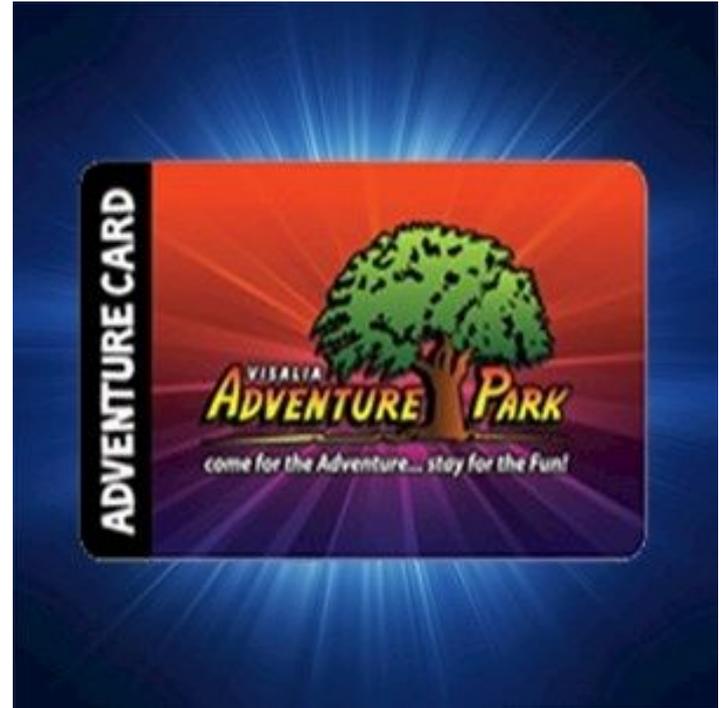

When we enter we will see lots of arcade games.
We can stay inside or walk past the arcade to the back doors that will take us outside.

To play video games I will need a Adventure Card.

When I play games I will get points. When I have no more money left on my card I can redeem my points for prizes.

Laser Tag and Laser Maze are indoor games. Players have to be in a dark room to play. The lasers are colored lights.

If I get hungry there are a lot of yummy foods I can choose from.

We can eat at a table inside.

When we go outside through the back doors I will see a lot of outdoor games.

To ride in the bumper boats I will have to be over 40 inches tall.

I will get wet if other people spray me with their water gun.

40 inches tall

To go miniature golfing
we first have to pay
outside at the counter.

Then I will be given a golf
ball and golf club.

We will begin playing at
Hole 1.

If I want to bat I will need to wear a helmet in the batting cage and remember to be careful.
To start the ball machine I just have to swipe my Adventure Card.

If I want to be a driver or go for a ride I can try the Go-Karts. All karts drive in a racetrack.

I have to be 40 inches or taller to be in the passenger seat and the adult driving has to be older than 16. If I want to drive I have to be taller than 54 inches.

54 inches tall

If I'm too small for the Go-Karts, I can try driving the Kritter Karts. Kritter Karts drive at a slow speed.

The Sequoia Springs is a small waterpark. I will get wet so I should wear a swimsuit. There is a lot of splashing.
